Helen Chen, Ericsson
Jeffrey Zhang, Juniper
Yi Yang, Cisco

Changes Since Yokohama

- Now WG Document
- Added clear-text algorithm for BFD
  - Also added caveat with respect to usage of clear text to "Security Considerations"
- Changed module name from ietf-key-chain to ietf-routing-key-chain
  - Avoid ambiguity with syslog key-chain which will be renamed system-key-chain

Next Steps

- Resolve module naming conflict
  - Comments against renaming and will resolve with syslog module draft at this meeting.
- Possible Operational State updates
- Current model represents rich set of functionality agreed to by multiple vendors
  - Ready for WGLC from this respect.
