CDNI Footprint and Capabilities Advertisement
draft-ma-cdni-capabilities-09

IETF 96

Kevin J. Ma
Jan Seedorf

Updates Since IETF 93

- Two new versions: -08 and -09
  - Moved Logging and Metadata capability object/ptype definitions to FCI Semantics draft
  - Updated ALTO map definitions to match object names in FCI Semantics draft
  - Updated text and examples to use ptypes defined in FCI Semantics draft
  - Added ALTO media type registration template
  - Updated security considerations and references

Next Steps

- Need to update examples to match changes to Metadata defined protocol/footprint registries

- Need to update security considerations to align with triggers, logging, and metadata

- Merge ALTO specific contents with: draft-seedorf-cdni-request-routing-alto
