Note Well

  - The IETF plenary session

  - The IESG, or any member thereof on behalf of the IESG

  - ***Any IETF mailing list***, including the IETF list itself, any ***working group*** or design team list,

    - or any other list functioning under IETF auspices

  - Any ***IETF working group or portion thereof***

  - Any Birds of a Feather (BOF) session

  - The IAB or any member thereof on behalf of the IAB

  - The RFC Editor or the Internet-Drafts function

  - *All IETF Contributions are subject to the rules of* **RFC 5378** *and* **RFC 3979** *(updated by* **RFC 4879***).*

- Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details.

- A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

- A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

Stuff that's done

- Published:
  - RFC 7799 (active-passive)
- On the way to the IESG:
  - pdm-option
- Done for now, waiting:
  - metric-registry (with LC comments),
    on insight from development of initial-registry

Stuff that's new

- draft-ietf-ippm-2330-ipv6
- draft-ietf-ippm-twamp-time-format
- draft-ietf-ippm-alt-mark (was p3m)

How to get work adopted by the IPPM WG

- Work happens on the list; start discussion there!

  - Announce new revisions to the list

  - Ask people to review and post to ippm@ietf.org

- Drafts with list discussion get time on the agenda

- Mature individual drafts will be considered for adoption…

  - …but probably not this year — we need to finish the work we've started.
