Changes

Name Changes

- MDD -> Media Distributor

Remove option of Null cipher for Hop-by-hop

Expanded security consideration section

Media Distributor RTP Header Options

E2E RTP header options work same as normal RTP

The Media Distributor can insert RTP header options and the receiver can tell they were inserted by the Media Distributor but the endpoint needs to decide which ones to use and which ones to ignore

What RTP headers should be the Media Distributor be allowed / not allowed to insert?

Modification of SSRC by Media Distributor

Issue was raised on list that this would be desirable
