DNS Delegation Requirements

Stéphane Bortzmeyer - AFNIC, channeling the real authors

IETF 97 - Seoul

Candidate for adoption

- `draft-wallstrom-dnsop-dns-delegation-requirements`

- `draft-wallstrom-dnsop-dns-delegation-requirements`
- List of technical tests that could be performed to check a delegation from a "public suffix"

- `draft-wallstrom-dnsop-dns-delegation-requirements`
- List of technical tests that could be performed to check a delegation from a "public suffix"
- Inspiration from CENTR Test Requirements Task Force (TRTF) and the Zonemaster tool

- `draft-wallstrom-dnsop-dns-delegation-requirements`
- List of technical tests that could be performed to check a delegation from a "public suffix"
- Inspiration from CENTR Test Requirements Task Force (TRTF) and the Zonemaster tool
- Lots of opportunity to argue about MUST/SHOULD/MAY
