draft-ietf-dnssd-push-09

Updated 31st October 2016

All session-management text moved to draft-ietf-dnsop-session-signal

Recast to use new draft-ietf-dnsop-session-signal mechanisms

Packet diagrams added for

- SUBSCRIBE Request, SUBSCRIBE Response,
- UNSUBSCRIBE Request, UNSUBSCRIBE Response

PUSH Message format updated to use session-signal format

Still To Do

Push Notification RECONFIRM

Push Notification RECONFIRM needs to be updated

- Needs to include suspect rdata, so the Hybrid Proxy knows what data is disputed
- Will fix in draft-ietf-dnssd-push-10

Next Steps

draft-ietf-dnssd-push-10

Submit draft-ietf-dnssd-push-10 later this week

Then it should be all done, once draft-ietf-dnsop-session-signal is done
