Update on
DHCPv6 On-Demand Mobility Extension draft

Danny Moses

Changes from 04 to 05

1. Clarified text to handle IPv6 Prefix allocation

2. Added a reference to RFC 7934 and a reminder that clients should follow the recommendations and guidelines in that RFC regarding IPv6 Prefix allocation

3. Left in the support for IPv6 Address allocation – as requested by the WG

Next Steps

Please adopt as a WG draft
