Multicast over IEEE 802 Wireless

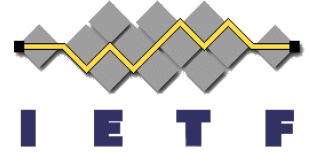

draft-perkins-intarea-multicast-ieee802-02

- Objectives (aka - wish list)
 - Describe issues observed when using multicast over IEEE 802 wireless Media
 - Highlight features to multicast performance that have been designed at IEEE 802 and IETF
 - Identify operational choices that can be made to alleviate multicast issues
 - Provide recommendations about usage and combination of features and operational choices

Multicast over IEEE 802 Wireless

draft-perkins-intarea-multicast-ieee802-02

- Next steps
 - Identify other enhancements (e.g. 802.15, 6lo, etc.)
 - Add information about differences between implementations and capabilities (e.g. Home AP vs Enterprise AP)
 - Start working on Recommendations
- Feedback needed!
