draft-ietf-netvc-testing-03

Thomas Daede
2017-03-28

New test sets

- objective-2-slow
  - Obsoletes objective-1.1
- objective-2-fast
  - Obsoletes objective-1-fast

HDR

- Both test sets now include HDR material, at all resolutions

- Encoded in HDR10 compatible format

- Stored at 10-bit sample depth, implies 10 bit support for codec

Low resolutions

- 240p content added

- Content at 720p or below has been extended to 120 frames in length

Other improvements

- Start frame of shields2 has been tweaked
- objective-2-slow is now a strict superset of objective-2-fast
