IETF RTCWEB

Interim meeting
June 12-13, 2012

Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- Any Birds of a Feather (BOF) session
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice.

Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

Agenda Day 1

- Use Cases (2 H)

* New use cases needing additional discussion if not resolved on mailing list.

* Use cases that require cloning (yes or no?)

- WebRTC's RTP Usage (3 H)

* Topologies that need to be supported

- what can be at one end of peer connection and what can be at other end

* Walk through of all the pieces suggested

- how to map media streams to rtp session.

 -- example: describe how retransmission SSRCs relate to main SSRCs

- mapping between RTP and what happens in JS

- JSEP (To be continued day 2)

Agenda Day 2

JSEP 9:00

Discussion of State Machine

* Interactions allowed

* SDP specification

 -- mapping between SDP and what happens in JS

Data Channel 13:00-14:30

DTLS-ICE 14:30-15:00

Security Architecture 15:30-17:30

* Continued Consent

* Identity and IdP

* Details of Security Architecture

Milestones 17:30-18:00
